Dear Mr. Ream:

The Leadership Department of the United States Army Infantry School is presently developing a course entitled "Leadership For Professionals." It is envisioned that the final product will be exported to all major posts and installations within the United States. In this regard, we desire to publish a book of selected readings of articles which relate to our general concept. This book would also receive Army-wide distribution.

Of particular interest in the field of understanding the young soldier of today is your article entitled "Youth Culture: Humanity's Last Chance."

This article would be of value to the Leadership Department in providing background information for our instructors and in the development of a book of selected readings. We would greatly appreciate your written authorization to reprint the article.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert I. Farris".
