## RADIO

- \* We should have some ~~way~~ together, beautiful revolutionary ~~and~~ ~~from~~ young people <sup>from this country</sup> to North Vietnam and broadcast music and news in ~~English~~ to American troops. There are ~~lots of~~ <sup>lots of</sup> people who are underground now who might feel their time would better be spent broadcasting to ~~American troops~~ G.I.s in Vietnam (or South Korea, or Germany, or <sup>a Radio Free USA from</sup> ~~the~~ ~~USA~~ Cuba for that matter.) ~~What if~~ Heavy rock and roll and black music and all kinds of music <sup>could be</sup> pumped out into the transistor radios and brains of G.I.s.
- News and analysis could be presented that would help G.I.s to make some sense out of the absurdity that he is involved in. Tell them all about Hue and Ky - who they saw their friends die for. Tell them about the mother country pig oppression and plastic banality that waits to either starve them or turn them into a robot when they return. Broadcast marijuana quality, pices, and hassles. Give them some specifics on what or how Vietnam training and hardware might benefit the struggle at home. Build up a communication network with dissident and rebellious G.I.s. Expose the realities of the whole "albid" pig death force in Vietnam and elsewhere.

If the life forces of the cosmos are to have any hope of success they must devise incredibly creative ways of using media and all other technology they can get their hands on to further their ends and equally ingenious ways of screwing up the

communications and other technologies which serve corporations and death. A good first start would be a revolutionary - New Age - radio station in Vietnam.

## INDEX

How about an Index of Death Forces and Evil Spirits? Sort of a huge, maybe loose leaf Encyclopedic index of information focusing most directly on those structures and property and people directly responsible for the actual functioning of American imperialism. Probably put together by people already into underground print media. It might include the Address, phone, and function of all Government and Military buildings - the address and phone of all Air Transport facilities - the location and phone of all police stations, offices, arsenals and related buildings. Lots of different people and groups might make an index for their local areas including information about people responsible for local repression like naves and F.B.I. and guards and wardens at local jails who have treated people brutally.

Within two years the government plans to have a budget of nearly two billion dollars <sup>and all that they have now, which will be</sup> specifically earmarked for repression - of "terrorists". With two billion dollars they will learn a lot about us. By such gross Big Brother intrusion they have declared themselves the enemy of young people. We should learn to know our enemy.

~~THE~~ DONT TREAD ON ME

The Port Huron Statement was written in 1962. Rebellion really began at Berkeley in 1964 with the

Free Speech Movement. Now there is the Black Panther Party, waves of bombers and guerilla training ~~but~~, ~~the~~ <sup>still</sup> the death machine of America has lost little of its real power. I think it would be wise ~~now~~ for the left to recognize that our numbers <sup>now</sup> are small. The next step is to figure out how to change that. Right? I ~~suggest~~ <sup>think</sup> ~~that~~ <sup>we should</sup> look at the fact that there are over 53 million people in the American population of 200 million who are between 5 and 17 years old. They are forced by law to stay in either regular school or reform school for the period. Many already see that everyone around the tries to turn joy into shit. They see what the people who control things put on TV, and know that it is garbage. They see the tentacles of the ~~massive~~ control machine sucking ~~down~~ <sup>down</sup> at them. Many are alienated and scared and mad and a lot more will be soon.

People who want to make a revolution in America should really think about this chronological reality that is coming at them. Young people know they will have to die too when the honkies finally fry us all but ~~they~~ <sup>most</sup> aren't even near to the beginnings of our revolution - or to the ideals of the Revolution of 1776 that their school/prison teaches them about. The law ~~requires~~ <sup>requires</sup> them to attend an institution for at least ten or twelve years which obliterates, as a matter of policy, Freedom of Speech, Freedom of the Press, Free Assembly and, fundamentally, freedom of Religion. Young people are too sophisticated and volatile to remain passive. They will explode in one way or another no matter what we in the movement do.

I think that relating to the oppression of young people should rank very highly on a list of
