

Why are we here? We are being persecuted  
in an insane cultural war, where there is no basis  
COULD WE POSSIBLY BE WRONG? in Science, Public Health, or the  
Constitution

No it is not possible  
think

FIRST evidence is that first time you get high on pot and you  
How can anything this wonderful, happy, friendly and  
harmless be made illegal. Why would they wreck my life over  
something that probably makes me a better person.

EVERY TIME AN HONEST GROUP OF PEOPLE COME TOGETHER TO STUDY  
CANNABIS THEY COME TO THE SAME CONCLUSION. WHEN PEOPLE  
HONESTLY AND THOROUGHLY STUDY THE CONSEQUENCES OF CANNABIS  
THEY REALIZE THERE IS NO HARM.

BUT THEN THERE IS ALL THE EVIDENCE

The British took over India and found millions of satisfied ganja users. They  
finally had a big commission and a huge report and they came to the same conclusion that  
the USA must come to right now Cannabis can't be wiped out and it is not a good idea to  
try. It is too ingrained in the lives and beliefs of too many people. It must be taxed and  
regulated, because to ban it would lead to people using substances more "deleterious" -  
more dangerous.

Cannabis, you see, is not a dangerous addictive drug. Only people who are paid  
say that sort of thing. Cannabis, as Louie Armstrong used to say, is a medicine.

In the 1920's the US army was in Panama as the Panama Canal was built and lots of  
American soldiers fell in love with the weed. The Army commissioned a major study on  
the question - and the officers in Panama did it honestly. They reported no loss of  
discipline or morale and said the marijuana problem evidently had been exaggerated.

All this was in place before Harry Anslinger played the Reefer Madness card  
MURDER, INSANITY, DEATH He said things like

**"Marijuana makes darkies think they are as good as white people"**  
And got marijuana outlawed in 1937.

New York Mayor Fiorello LaGuardia, knew better and set up a huge scientific  
commission. Their report came out in the 40's and proved scientifically that marijuana  
caused no physical or social harm and

It did not make people anti-social, it makes them more sociable.

It made people feel 'adequate'

Harry Anslinger of the Bureau of Narcotics said that if anyone else did any science using  
marijuana they would be arrested.

The British Wooten Report said "it is clear that cannabis is not a very harmful drug"

The great Canadian LeDain report said that people smoked cannabis for the pleasure of  
the experience, not because of anything pathological, they said, like president Carter, that  
cannabis laws hurt people much more that cannabis did.

Our own American commission, these were conservatives picked by Nixon,

Could avoid the  
Truth

said that marijuana had become a "Signal of Misunderstanding" in our country and that possession and small scale distribution of cannabis should be decriminalized. That commission report, the Shafer commission report is 35 years old now, but the truth has no expiration date. It is an unspeakable crime to make a crime out of cannabis.

Every time a top level group of people was gathered together to get to the truth of the matter about cannabis they have had to admit that it was no great harm, that it should be decriminalized - or taxed and regulated

The only people who continue the drumbeat of reefer madness are people who are getting paid, getting paid to attack American citizens who are engaged in their own private lives. In law enforcement or "treatment", or courts or jails.

THEN WHO IS ATTACKING US, PERSECUTING US, ARRESTING ONE OF OUR KIND EVERY 41 SECONDS

JOBS - To Terrorize ~~and~~ <sup>Imprison &</sup> ~~and~~ <sup>Torture</sup> other americans.

ILLIGITIMATE POWER OVER OTHER PEOPLE

Willing to SACRAFICING PEOPLE AND FAMILIES AND MEDICAL PATIENTS FOR THEIR CULTURAL WAR AGAINST PEOPLE OF COLOR AND THE COUNTERCULTURE.

It is people willing to try to destroy our lives and the american constitution they were sworn to uphold for money, for a paycheck.

IS IT REALLY FOR REEFER MADNESS Why Really

FOR A RACIST PLOT OR AN INDUSTRIAL PLOT

Darkies as good as white people  
Dupont rather than AMA

Terrible over riding fear  
Restricted, Constricted lives.  
Some body's somewhere is having more fun.

REALLY THE PURITAN FEAR OF PLEASURE IN AMERICAN SOCIETY  
Has to be BAD if it gives pleasure without suffering  
IN THE END IT IS THE ILLIGITIMATE AUTHORITY - THE RIGHT TO SELECTIVELY PROCECUTE WHO YOU DON'T LIKE. THE RIGHT TO DESTROY THE CONSTITUTION TO DEFEND THE USA FROM CULTURAL ADAPTATION.

GIVES THEM A CHANCE TO BE ABSOLUTELY ANTI AMERICAN - AND FEEL SANCTIMONIOUS ABOUT IT.

To have a way of destroying all the LIBERTY AND JUSTICE AND FREEDOM THAT THEY WANT TO. and get away with it

DISGRACE TO AMERICA AND AND DISGRACE TO GOD WHEN THEY BADMOUTH & PERSECUTE FOR THE TEACHING AND HEALING PLANTS

IT IS **CULTURAL WAR** USING THE POLICE PRISON POWER OF THE STATE

IF THEIR WAS A JUDGEMENT DAY, DRUG WARRIORS WONT FARE WELL.

~~PROOF that this is pure cultural war ARTICLES... Drug Education~~

NUREMBERG RULING "I WAS JUST FOLLOWING ORDERS" NO GOOD,  
WOULD IT WORK ON JUDGEMENT DAY

Washtenaw County WHAT SHOULD WE DO NOW

NO SUPPORT FOR JAIL AS LONG AS THEY ARE PUTTING POTHEADS IN  
THERE

*- Community* *See there are people who shouldn't be in there*

COMMUNITY STANDARDS LIKE Dane County Wisconsin

NO TESTING - DIRECTLY CREATES COMMUNITY PROBLEMS - DANGEROUS  
DRUG ADDICTION.

*Why would we use public policy and tax dollars to create drug addiction*

SO, **COMMUNITY STANDARDS** MEAN  
NO TESTING FOR POT AND  
LOWEST PRIORITY ENFORCEMENT

A plant illegal ? How absurd how transparently unconstitutional.

WE ARE THE REAL AMERICANS

WE want to resurrect the real USA , where there is freedom and liberty and justice for all.

**Einstein** quote We will not solve the major problems of our day with the same sort of  
**consciousness that got us into them**

*Need Love, Community, Feeling of Adequacy, Oneness with the earth*
