Listen Carefully

① Support for legalizing cannabis is at 45%, the highest ever. Please Be all that you can be, and talk to someone individually who does not understand the wonder of the weed. Take Personal Responsibility for changing 1 persons mind.

② We will have major threats to our new law this year! We must be united and act strongly when we are threatened. We have great leaders in Michigan Tim Jamie Rick Robin Char Brandy. When they say it is time to fight back we must Act

③ You must be at the Public Hearing in A² the night before 4/20. ^{April 19} They are trying to pass a law that says you have your rights as a caregiver only if you own your home. We will change it. *Remember City Council is innocent. This crap comes from Dorth Pestone the City Attorney.*

④ We are running an historic Lowest Law Enforcement Priority campaign in Kalamazoo - giving K-200 voters the chance to make Marijuana law enforcement their very lowest priority - the chance to show that voters No longer believe in Cannabis prohibition. The beginning of the end ~~of~~ of Cannabis Prohibition in Michigan

⑤ To fund This campaign you can buy these signs Today, on Monroe St to protect your growroom. They provide legal notice that your grow is legal and not to be Touched. Fight Back my brothers and sisters, Dare to Kick Ass. When we think of our patients we know that we do Not have the option of Failure. FIST UP
