

X Sumerian Religion - Based on Mushroom Cult and copulation. (We think we are advanced)

Give me that old time religion, good enough for me

Intro - Religion was born out of dependence on nature.

One had to communicate with the source of fertility

- get heavenly phallus to drop semen - So, copulate

xxi - The way to God and the fleeting view of heaven was through plants.

xxv "Sin" for Jew or Xian is The "emission to waste" of sperm - Blasphemy

1 Real Religion - (The Binding, linking) was there - not alienated - You had to have a "right relationship" with that natural power.

22 - Plants - Roots below the earth. Water from above and below - Thought possible that varieties of vegetation could give access to the wisdom of these realms - The ones concentrated to the greatest degree hallucinogens could impart "Knowledge of the gods"

48 - The mushroom based religious experience was "Key" to mystic experience and "rebirth"

76 - Main - (now) function of temple prostitutes was to procure sperm for ritual purposes.

80 - He says "The whole Eden story is mushroom based myth" eh.

80 - Sally

81 - The Sexual Power of Women was Vital to Mystery Cults, & they were popular with women.

95 - Much Near East Mythology hinges on the dying and rising god (Really the seasons)

169 - The Sacrifice of Jesus is what makes Christianity a religion. - To bring things together again??
"heal the rift that has opened between god and the world."

Essenes - Gnostics - Life, not death, was man's misfortune - trapped in matter

189 - Early Judaism - based on mushroom cult??

Origins of Yahwism was within the "fertility cult" tradition - Not in opposition to it

So, The Psychedelic tradition in Judaism was wiped out by the behind the couch reform

motion of Judaism - Baal was in there and
YWEH had a wife. Ashera

193 - if it is (Xianity) rooted in an old mushroom
based "fertility cult" the need for a real Jesus
fades away.

196 The Bible and Morality - Take 10 Commandments
First 4 or 5 are cultic religious stuff

¹⁹⁵
196 Yahweh makes clear he is jealous/punitive/disgusting.

205 - If some aspects of the Xian
ethic still seem worthwhile today does
it add to their authority that they
were promulgated 2000 years ago by
worshippers of the amanita muscaria?

- compare
Clark Heinrich?
on amanita
