

4 - The Plants talk to her - Estonian
15 - Pigeons - can select Van Gogh's rather than Chagall
32 - Plants - Trees - Deep Down They are also beings.
Rocks - a Beach

46 - Our view of who we are - Less & Less defining us
as different from animals

"An Awkward Growth of Knowledge"
ECME - Leads us to like about psychotics, or about ecology
New/Old elements / universal

77 - Whether humans are "sapiens" remains to be determined
83 - Plant - When Attached - Releases chem. that attracts
The Predator of its attacker

97 - A single celled slime mold can solve a maze - Does this
not confirm that the entire edifice of life contains intelligence.

99 - Christianity helps Kill The Westerners ability to conceive of
intelligence in Nature - Shinto - Onimist

126 - This much space 0 - 2 miles of brain wiring
100 Billion cells

129 - A Brain in the Gut? 100 mil. neurons capable of
responding to emotion - Source of Gut Problems.

130 - Emotions require the body "A Theater for emotional
realization.

130 - 100 Bil Neurons - Each neuron could have 10,000 synapses

134 - Brains - wired for Change - They are Transformers

143 - Human Body - 100 Trillion Cells That communicate
thru Chemical Messengers

146 - Are Proteins "Intelligent beings" - The first job of protein
is to recognize

Many clear indications of capacity to know all thru the
edifice of nature.

Scientists now confirming what shamans have long said
about the nature of nature

EWTHED - Knowing that a capacity to know exists
beyond humanity leads to a richer, more adventurous
comfortable life

Now - depleting nature - Not Sustainable
We have not yet learned to control our predatory
Nature. ECME THAI is exactly what the teacher

ing plants can help to catalyze
148 - Jaguars Top Predators - Can Control Their Power
Last Paragraph "Humanity can learn from
nature. This requires coming to terms with
nature's capacity to know. We are a young
species, and we are just beginning to understand.

150 INTELLIGENCE Ayahwasca IN NATURE

Plant Teachers
or

Good Way to Explore the Mind

167 For a true interlocutory relationship between
nature's beings and human beings

Their respective souls must leave their
bodies to free themselves of the constraints of
speech

168 Dialogued directly with the double of another
of nature's beings, be it human, plant, animal, or
supernatural spirit.

177 Other Species are our Kin - E.O. Wilson

141 Plant Cells have a capacity to know & to relay
information

178 { 3 Billion letters of DNA in each cell

199 - The Guilt of The Human Species is Not in Doubt

205 What we did on many continents.
200 We are in nature AND out of it

202 - Volatile Chemicals are the language of plants
