 103 Killing of Don Scott
 104 80% of forfeiture victims never charged
 Over the last fifteen years, American taxpayers have laid out over \$300 billion to wage the war on drugs—three times what it cost to put a man on the moon. Drug Crazy offers a scathing indictment of our expensive and hypocritical follies, which have essentially benefited only two classes of people: professional anti-drug advocates and drug lords. Mike Gray has launched a frontal assault on Americas drug war orthodoxy, and his disturbing overview of the battlefield makes it clear this urgent debate must begin right now.
