

12/13 - Global Action Plan - "What is lacking in the Corridors of power is an Ecologically Defined vision."

19 - Statement of PROGRESS that has been made - in "post-ind" ^{North only}

20 - 63213 since 1972

21 - Nothing will work short of Altering the Basic Pattern of Human Activity.

22 - Contrast + Disciplines of Economics vs Ecology

24 - Ranks of Poor have increased Lat. Am. Africa - incomes ↓

25 - 950 Bil. spent on military - biggest drain on resources

25 Forests

27 - Exact Rate of Ozone loss over US - 4-5% in 13 yrs

28-29 - Incomplete Accounting System - means real costs - Disguised Deficit Financing - Destruction of Natural Capital.

29 - Daily "Tread Earth" as if it were a business in liquidation.

30 - A sustainable Society - Def. ...

31 - world - so resolutely marching along a dead end path

36 - Cut back Carbon to $\frac{1}{6}$ current level

3 times as energy efficient

45 - More jobs with conservation of energy - than with new power plants 4 to 1 Ratio

58 - Solar ~ Solar / Hydrogen Combustion

72 - Photosynthesis - Def. - to carbohydrates?

support all life on earth.

41% in ocean, 59% on land

75 - Must Dramatically slow deforestation

Forests - $\frac{1}{3}$ less than in Pre agricultural times

84 - It is croplands that must satisfy future food needs

Growth in Cropland area stopped around 1980

89 - Irrigation, H. yield Varieties,

Fertilizer - Engine of Growth

90 - Fertilizer Use - 6 Grain Area per Person

⊗ GRAPH

95 - No New big way food Production can jump

- Even moderate Consumption of Livestock products can reduce life expectancy.

Q may not be agricultural - A Crisis of Population & Climate Control

96 - maybe Saving the Planet

"Post industrial - But Not Such Thing as a

"Post Agricultural" Society

97 - 36 times - US average 36 times as much Commercial

Energy as an Indian

98 - Believed world can go to no more than about 8

Billion max - if there will be massive starvation and disease

- would take Revolution in social values & reproductive behavior

106 - Rising Literacy of Woman - factor most associated with fertility decline.

115 - Cancer ^{Anal} Comp of Human Economic Systems with

cancer - attacking host

- The Transformation 4

- 1) Govt. Incentives
- 2) Tax Policy
- 3) Development Aid
- 4) Debt Relief

TB Q. The hubris of wisdom of unlimited growth seems blasphemous.

116 - As a subset of the biosphere the economy cannot outgrow its physical limits and remain intact. ★

40% of total photosynthetic production

- statement of Vitousek

Biological Realities

117 - California Example 1978-88 Reduce Electricity consumption

118 - Poverty - ERRTH

120 - Environmental Taxes - Designed to Make Prices
Need Indicators for Progress toward goals - Sustainability
GNP? No OTHER NORTON/WORLDWATCH BOOKS New Accounting

124 - GDP assigns a positive value to any economic activity
Garrett Hardin - Poor statesmen to try to maximize GNP is as sensible as a composer must try to maximize the number of notes in a symphony
Recalculate GNP to take into account depletion of natural resources
125 First - Make Inventory of natural resources
125-26 - The H.D.Z. Human Development Index.
2) The Index of Sustainable Econ Development - Includes environment
128 Graph - Compare GNP & ISEW
129 - Need Transparent & Tangible indicators to create the political constituency for needed governmental policies. Must have measures of well being reported more routinely.
131 Many Govt. continues stacked squarely against sustainability.

137 Rich countries have Trade Barriers to Price Supp. to keep out products that could be supplied by poor countries - Yes But should they export food
142 New Taxation Policy - for environment

Power Surge

143 - Send Law Enforcement after the C.R.C. Smugglers
Drug Wars IS Daniel of Macro Terminal Inevitable problems
& Law Enforcement used to chase the "bad guys"
Hey the earth is going to need law enforcement to focus on all Aspects. Law Enforcement doesn't have to worry if crime was a drug war end if
Can Law focus on the real question of soil & earth death forces
They will be with the people - like dragons

SAVING THE PLANET

143 - Tax
146 - 8 Green Taxes - Total 130 Billion = 30% decrease in Income Tax
148 - Green taxes will Not Serve goal of Equity - I still need a progressive income tax
151 - Because of How to Shape an Environmentally Sustainable Capital Now Flows from Poor to Rich - from South to North 35 B. Annually

152 - Goal - of Boosting all Rich Nations annual aid levels to 0.7% of GNP
Little New goes to population or sustainability - to 80 B
Lester R. Brown
Christopher Flavin
153 - Norway - Aid program 5 times size of US AND more focus on sustainable development
154 - Leadership - from World Bank? Sandra Postel - to the neediest countries
157 - World Bank (or anyone) will stumble unless they have a "coherent vision" of environmentally sustainable development.
160 - The Worldwatch Environmental Alert Series
Debt forgiveness Linda Starke, Series Editor
Debt for Nature swaps - They Have Been Done

165 - Building W. W. NORTON & COMPANY
NEW YORK LONDON
an Environmentally Sustainable Economy - means the revolutionizing every facet of human existence. Econ, Polit, Sexual, Subst.
- must be compressed into decades.
166 - Prerequisites for livable world - freedom, justice, dignity
Fantastic Conclusion - "Human institutions, health care, hopes in a matter of years"

167 Chipko - means "Tree Hugger" Movement in India

170 - Showing that Political Change Democracy is necessary for enviro concerns to be heard. Dictators selling out

171 - oil gas Auto cost Resist Fossil Fuel Reduction - have great ^{power} _{no rep}

173 - The battle ~~over~~ to save the planet ^{could replace the battle over} _{ideology as the organizing principle}

176 - USA All rights reserved Printed in the United States of America

Terrible on carbon emissions ^{US plans to greatly} _{increase while other nations plan to limit}

181 The Chance for Change - to Sustainability - is a "limited time offer"

Depends on how badly we want a viable ecosystem for our children.

181 more likely scenario Disaster to our planet
