

3. Move From an Industrial to an Ecological Civilization

83 The Malaise - political, social, ecological, moral

4 - Business as Usual - IS Not Sustainable
Need Transformation - That will be work of generations
But must move fast.

8/ Ecological and Democratic Transformation challenges the determinism of economics by bringing forward the forces of community and democracy which under industrialism are under the control of markets and plans.

8 Industrialism Imperatives - Maximize Production & Consumption (2) Max. Profit and/or power.
Reduce All magic to Resources, Consumers, workers

9. The attempt to continue forever the growth of production and consumption is deeply contemptuous of life.
9 - we are supposed to find meaning in it - T.V.

Industrialism seeks Maximization - Not Equilibrium.
Problem more social than technical.

10 BAD 1) Endless growth 2) Inherent tendency toward WAR

14 Failure of markets - Need for a Balance of Market and planning to guide the transition to an Ecological Society

19 Sustained Growth is a cruel falsehood - if it may
Sustainable Society must break the identification of Growth with Social Good

20 USA 67% of Pop 30% of Industrial Resources

21 EOWilson - Great Extinction Spasm quote
- Amphibians - The Canaries in the Mine

22 Materialism "Things are in the saddle and are riding man kind." Ralph Waldo Emerson

23 Progress is the code word that defines exploitation and destruction as beneficial.

30 - The Triumph of Industrialism is not to make individuals not just parts of the machine but parts of it
Servants

Paradox 1 - Rational, Scientific - yet leads to catastrophe

34 Huge Plenty - & hence so much poverty and desperation.

35 Dazzled by objects, the wonder slips from our senses
destruction as heroic

MAT

40 Myths of Industrialism - When - genocide as doctrine

42 - on Psychology - Psychology traditionally rakes in to screen personal agonies from their social genes is...

43 - Friend - good - analysis

44 Then Friend on the Need for the Acid Breakthrough to the

Archaeic revival - "Our present age looking, so to speak, like Orlegy & Cassatt - a shrunken residue of form"

Ecological Society represents the return of Pleasure.

Chaos is today the fundamental characteristic of the world system.

46 - Geometric growth of resources, pollution - Unstoppable

50 Imperatives of Industrialism

51 - A political void remains at the center of Globalization

54 - of the 100 largest Economic Units in Earth 53 states
47 Trans Nat Corp.

3 billion people - 0.5% income of 25 largest corps

56 George Soros - "Smart money"

94 - Brown - Ruckelshaus What would have to be done to actually save ourselves. - rev. equal to ag. & ind.

95 BUT No suggestion as to how we catalyze the fundamental social changes which must come from below, from a real transformation in the way we live.

100 - BEGAN IN 67 - Quashed

South End Press Boston, MA

105 - Beyond the Limits Computer Models - put the end

106 - collapse - during mid 21st Century.

CONCLU

107 - Empires can be brought down by the courage of individuals suddenly manifest in the collective truth and power.

110 - must - on CO₂ & Climate warming

111 Leggett - on the Runaway Warming 50 - 1.62
Should stabilize at 1950 level 91 - 5.85

144 Earth Conclusion - The Motive Force for Change?

lies in the associations of civil society
 149 - The Social Wage - Income floor during Transition
 163 - in Cap. Industrial world we are free to buy - but not free to BE

167 - Transfr

1. Environmentalism. 2. Social ecology. I. Title
 GE195.M67 1995

175 - Limitations 363.7—dc20
 on Private Property - CONCLUSION - like the far 95-8991

187 - the increasing complexity of society - in terms of the new
 co-op - self managed participatory forms would make
 a reversal of the industrial globalizing, homogenizing force.

183 - We must provide credible answers known fact
 201 - Industrialism survives because it can socialize - that is take from the public - its most burdensome costs.

205 - Book - Virgin materials - you pay a tax for them - you don't
 get a depreciation allowance when you use them up

206 - on what is a Good Investment
 For Book on how disassess can be profitable

207 - "Index of Sustainable Economic Welfare" Daly & Cobb - To Appear
 South End Press, 116 Saint Botolph Street, Boston, MA 02115

- A Corporation 01 00 99 98 97 96 95 1 2 3 4 5 6 7 8 9
 imperative - Profit, Stock Value only - SO Corporation form is new - too
 efficient like a bomb. So maybe we must stop this form now - or
 require them to show a net advantage for society.

208 - The "Social Wage" bridge to the new world - Muller & the ind. to make our system
 210 - Build Society on Optimization - Not Maximization

213 - military - military Spending - For Book - The US

219 - Key to developing an industrial (manufacturing) Ecology - transformation of

222 - First, Second, Third for transformation.
 - must ultimately mean end to the growth of industrial production and consumption

225 - The Information Revolution is a job destroying revolution.
 230 - An ecological democracy would come from the top - but from the
 countless pandemonium of people in countless communities.

232 - The path of earth saving is a path of community and love
 Ecol. Dem. is the striking off of blinders and the conscious embrace

233 - Democratic of the still vibrant world
