

190 Producing U.S. car requires 50 times
its weight in water.

191 - Enough water ultimately depends on
Rapid Slowing of population growth.

191 - our "Last Oasis" of Conservation, Efficiency
Recycling & Reuse might be able to
buy ~~us~~ enough time if we use it
to reduce pop growth & consumption

- By $\nearrow$ 2035 $\frac{1}{3}$ drop in per capita
water availability
