use the Democratic Process. if you don't like the law then use
the democratic process to change it. Both Sides ★
We did that. We now have a crystal clear law / stating

That a qualified patient can grow 12 plants and a Registered caregiver
Separated / Split off - so it can fail on its own NO model
cultivation Facility / From the ordinance

You cannot say that people can be caregivers only if they
own their own home and are growing in that home.

Paid for Detailed Legal Analysis / Sent to you / Clearly Correct Correct
definitive.

We shouldn't have had to pay for that
But we cannot have the Cult Facil Language
adopted the way it is Now. The Dispensary part could be
workable. Let's go with it.

Can grow 12 plants for each patient, up to a maximum of
5 patients. This is Not Rocket Science. We voted 79% in Ann Arbor for the law written
just the way it is. You can't, and I know you won't
let the legal department slide in here and again
try to restrict, and search and inspect caregivers,
illegally - in Ann Arbor. of all places. UP

Lets ~~not~~ finish up the dispensary ordinance and
get licenses issued. Toss out that Absurd & repressive
current text on "cultivation facilities"
our citizens want dispensaries, Otherwise they want you to
You to Support the Law as it is written
