

Right now we are looking at a freight train
of DEA/MMC inspired ordinariness affected by the law
in rich cities

A Fundamental Part of the A was to
provide this level of Confidentiality
for patients and caregivers precisely
during the period when Federal Policy
is so ~~clearly~~ clearly off its rocker and congress won't
fix it. (Schedule I was a whim of Nixon, who
was impeached. No evidence was ever presented relating
to science or public health. ~~It~~ ~~is~~ ~~not~~ ~~at~~ ~~all~~
false - to defend it is to ~~defend~~ ~~admonish~~
it.

Confidentiality is a lot like pregnancy. You can't
"partially" destroy confidentiality and still have it.

Public Hearing
Zard Resdine

Not appropriate to say a criminal punishment (search, inspection, & consent) are "Non Senses" - an attitude of defiance
Even if you are a city attorney

If there is a law that is written in a way you don't like you still

should obey the law, rather than attack it, face litigation

TRY TO FORCE JUDGES TO BE JUDICIAL ACTIVISTS - TO TRY BY FORCE OF ORDINANCE and litigation.

B Change/Reverse Patent Re Confidentiality of the MMTA.

This is not proper behavior. The 63% victory is a MANDATE for ~~the~~ implementation of the terms of the Act - Not a mandate for an open session on Patent and Congress and

Extralegal harassment of course, compliance permits fees, inspections, or outright bans on behavior that is specifically licensed by, regulated by + thus pre-empted by the clear terms of the MMTA.

I taught Kindergarten for 33 years. I had
Children in my classrooms who could have figured out
what 5 + 12 plants was, and then
patients
added 12 more if the grower is a patient, and
that makes 72. And that's what Ann Arbor
voters voted 79% for. Please support them,
you know they would support legalization if ~~it was~~
~~any~~ commercial markets were properly regulated
and taxed.

What in the world has he told you? ^{The Dutch ^{Evergreen?} ^{responsibility?} ^{# of plants} is}
not particularly significant. You could easily grow
72 plants under a large ^{light} bulb, on one plant.

We can't have lists because of the ^{excessive} nature of
the Repression against our people,
People who use cannabis medicine can become part of
a brotherhood as is the case

So what are you doing with the third class repression
~~attempted~~ over regulation
making it very ^{detour} interesting to be a
caregiver because ^{you} ^{name} ^{is} ^{on} ^{the}
floor ^{legale} ^{list}, and your punishment could come (2) or
10 years away, ^{alth} ^{the} ^{Federal} ^{govt} ^{takes} ^{the}
into you have ⁵⁰ ^{and} ^{travels} ^{to} ^{gather} ^{for} ^{them}.
